EDUCATION

University of Florida **Graduation Date: December 2026**

B.S. in Computer Engineering (GPA: 3.3 / 4.0)

- **Relevant Coursework**: Circuits 1, Microprocessors, Digital Logic, Digital Design, Operating Systems, and Data Structures

WORK EXPERIENCE

Honeywell Aerospace Software Engineering Summer 2026

- Redesigned a legacy engine documentation tool into a modular Python system, replacing a decades-old Fortran-based workflow and significantly improving processing speed, maintainability, and usability
- Supported baseline development for an avionics flight systems program, modifying embedded (Ada) code to remove obsolete legacy components and establish a clean software baseline
- Authored and executed a formal test plan to verify functional correctness of embedded code changes in a safety-critical environment, using a dedicated compiler for verification
- Used Jira and Bitbucket for task tracking and version control in a large-scale, safety-critical embedded software development environment

Engineering Design & Society (EGN2020C) Undergrad TA September 2023 - Present

- Managed 4 Prusa and 6 LulzBot 3D printers to ensure optimal performance for student projects; maintained filament inventory, performed routine maintenance, and demonstrated proficiency in CAD design using the Onshape platform
- Provided comprehensive grading assistance for over 5 classes of 50 students, offering constructive feedback to promote student growth and academic success

STEP UP Mentor & Resident Assistant July 2024 - May 2025

- Mentored 9 students within a cohort of 80 first-year engineers, providing academic support in Pre-Chemistry, Pre-Calculus, Pre-Physics, and Engineering Design & Society.
- Served as a Resident Assistant, managing housing logistics, resolving conflicts, and supporting student well-being through check-ins and bulletins.
- Organized corporate and lab tours (Ford, Motorola Solutions, UF Research Labs) and led resume and career fair workshops reaching 60+ students. Maintained program standards via weekly reports, email updates, and progress tracking.
- Continued mentorship during Fall/Spring semesters through monthly luncheons, check-ins, and guest speaker sessions on research, study abroad, and academic engagement.

LEADERSHIP

Phi Sigma Rho - Vice President of Social Affairs January 2023 - August 2025

- Led planning and execution of over 50 social, sisterhood, and cross-organization events per semester, boosting chapter engagement and morale.
- Oversaw and manage a committee of 4+ appointed officers providing mentorship, timelines, and logistical support.
- Enforced and implemented university, Greek, and national-level Risk Management policies; ensured alcohol, hazing, and event protocols were strictly followed, including all required paperwork and training attendance.
- Created and maintained a detailed event calendar, budget tracking system, and receipt logs in collaboration with the VP of Finance; managed event budgets up to $2000+.

ACHIEVEMENTS & SKILLS

- **Skills**: Proficient: C++, Python and Java Intermediate: VHDL, Javascript, C
- **Awards**: Dean’s List in Fall 2023, Spring 2023, Spring 2024
